The Examiner also required Applicant under 35 USC 121 to elect among the following patentably distinct species of the claimed invention:

Species A: Figs. 1-3

Species B: Figs. 4-6

Species C: Figs. 7 & 8

Applicant respectfully elects Species C, Figs. 7 & 8, and claims 36-40 readable thereon. Claims 20-35 have been cancelled herein, without prejudice, and will be pursued in a divisional application.

The Examiner also required Applicant under 35 USC 121 to elect among the following patentably distinct species of the claimed invention:

Species a: fill material is a gas

Species b: fill material is a liquid

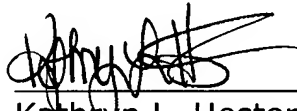

Species c: fill is a granular

Applicant respectfully elects Species a, fill material is a gas, and claims 36-40 readable thereon. Claims 36-40 are all generic for this species requirement.
